	ship's officers and crew until proper application had been submitted to the port authorities. At the request of port authorities, the Captain approval for going ashore was granted to members of the crew. On several approval for going ashore was granted to members of the crew. On several approval for going ashore was granted to members of the crew. On several approval for going ashore was granted to members of the crew. On several approval for going ashore, and he in turn informed these officials that he had not been notified that they were allowed to go ashore. On several occasing resubmitted his applications but permission was never officially grant to was observed however, that bribes such as small presents could be used as a means of getting ashore. On several occasions a Chinese guard was pribed with gifts of food, cigarettes and coffee. The guard would then allow crew members to stroll up and down the pier alongside the ship at hight. On one occasion a gift of a cheap, used leather wrist band was sufficient to allow a crew member to go ashore in an attempt to visit a frie board another vessel. This attempt however, was unsuccessful when a guarevented the man from going aboard his friend's ship. As a result the rew member was returned to his vessel and warned not to attempt any such collish action again. It is not known what disciplinary action was taken to gainst the sentry who appeared frightened and stated that if he allowed myone ashore again he would probably be shot.
